THE IMPORTED "AMERICAN WORKMAN."
Washington Post.—There is too much grub about the rights of "the American workman." Nine times out of ten the man who resorts to violence and practices brutality is not an American at all, but a half civilized foreigner, who exactedly speak our lenguage and does not respect or even understand our institutions.

Frankfort Cupital.—There has never been, and there will never be, a Citil Service Commissioner who did not give advantages to the members of his own party. It is only a bernsphroditic Mag wunp who would claim that absolute impartiality can exist in such a commission while made up of men with spirit enough to believe in the principles of one or the other of the two great parties, and courage enough to express their onlinons.

THE BOTCOTT ISSUE IN COURT.

Philadelphia Times.—The order of Judge Ricks of the United States District Court of Tolech restraining the Brotherhood of Locomotive Engineers and Firemen from enforcing a boyect against tie freight on the Tolecio and Ann Arbort Railway, raises a question which many thoughtful men have expected to see raised long ago. The pith of the issue is the right of the employee of a railroad to do any act or thing to prevent the road from doing what it is bound by law to do,

The Richmond Register sums up the situation in three sums, thusly: If such men as Fred Grant are to be retained in office during a Democratic Ad ministration, your Uncle Grover might as well turn over the whole husiness to the Republican party.

The new President has been very slow in sending in appointments to displace Republicane, and has further announced that no officoholders under his former Administration need apply, as histends to make a new deal. A Mugwump is so good as a Democrat and a Democrat is a little better than a Republican—that's all.

What's the matter with your Uncle Grover that he has decided to continue Fred Orean as Minister to Austria, In-politing a good Democrat in his stead; It this is a Democrati President prece-dent, why not keep in the whole litter This kind of poley may sait Grover and Greaham, but the old-fashioned Democrate are kicking like Texas sevens.

AN HONORABLE EXCEPTION.

The Philodelphia Dreas remarks that he is the only Democrat who held office four years ago who deserves resuponisment." More than eight years ago Mr. Ichreland declaration was in his fars lietter of accept for president, but has since accepted two mominations and one election. This declaration was in his fars letter of accept ance, dated Jugust 18th. 1884. Speaking of the election of a man "to assume for a time a public trust, instead of his dedication to the profession of politics," and of "the full realization of a Government by the people." Wirm their President in the White House, and a Democratic Congress at the Capitoi, the Free-traders have reached a point where they begin to taik shout. The Taxed the taxes which Breakfast Table. they intend to improve the election they have been gradually approaching advocacy of the taxed breakfast table. The movement began with eastlone, but has grown in boldness from day to day and week to week, until now some of the highest authorities in the Democratic party are nnequivocally on record in favor of duties on tea, coffee and sugar. The Philadelphia Record asserts that, as a preliminary step to attacking the McKinley Tariff, new sources of revenue, which will yield about \$100,000,000 to the Treasury, must be opened, and insists that this amount can only be raised by going "at once to those sources of fiscal revenue that belong to a Tariff for revenue only." These sources are thus pointed out:

pointed out:

First in the list is sngar, which at a duty of 14 cents a pound only would yield a revenue of \$80,000,000 on the basis of last year's importations. Next comes coffee, which at a duty of 3 cents a pound would yield \$18,500,000 more. Tea would produce \$4,500,000 revenue from a low duty of 5 cents a pound.

would ricid 315,500,000 more. Ten would produce \$4,000,000 revenue from a low duity of 5 cents a pound. Here are Democratic taxes for the contemplation of the workingman who was caught in the Cleveland net last November by the bait of "cheaper necestation of life." They mean a tax not aims for his breakfast table, but for his dilmer table and tea table in the bargain. These will be Tariff burdens consering which he can entertain no doubt. When the Republican Congress removed the duity from sugar that article dropped in price just the amount of the duity. When it is reimposed the price of sugar will go up immediately, as will also be and coffee when they are taxed, because this kind of a Tariff is a revenne Tariff, and, units a Protective Tariff, is always added to the price.
